

Never Forget the Faces of those Children

Refrain:

**Never forget the faces of those children,
war torn with fear yet they smile.
Forever they'll bear, deep within their wounded bodies,
the pain of injustice and sin.**

1. Stop the oppression!
Will this war never end?
Our bodies are as sacred as yours.
Tell all your people, it's not weapons we need,
but it's peace in our land we long for. *Refrain*
2. We have seen many children mutilated and torn,
their young brothers and sisters no more.
And their mothers and fathers
cry deep from their hearts:
please stop the injustice of war! *Refrain*
3. *(Instrumental)*
